And marching forth with basket in his hand,
Began his cry with voice thus deep and grand:
"Who buy my new red powder, kill de flee!
Seex painee de paper, varee nice, you see?"
The woman heard his bass before her door,
And straight began a tenor stave to roar:
"Halloo! there mister! how d'y sell your stuff?
What in the world is't made of, scented snuff?"

The dull grave fool will ever act the wise,
The coward be a bully in disguise,
The just man's acted by the cunning knave,
The proud man, out of pride, will be the slave,
The knavish flatt'rer still assumes the friend,
Gives others praise, himself to recommend;
And cries their sense and judgment up alone,
Not to support their credit, but his own.
And not so much to have it understood
Their praise is just, as that his judgment's good.

Detractors, who speak ill alike of all,
With their false judgments their reasons call.
The hypocrites still more religion act,
Most faith profess, as they have least in fact.
The cunning slave most for a fool would go,
And seems the bubble whilst he makes men so.
The wealthy hoarding miser acts the poor,
And least confesses, as his wealth is more:
The needy prodigal, on t'other side,
Fond to seem rich, shews all his store in pride:
So fops, most lavish of their little wit,
Talk most, but less still to demonstrate it.

V. MAY, begins on Tuesday, hath 31 days. 1821.

Thus in the world, as in the stage we see,
Men act, unlike themselves, in each degree.
But 'twixt the world and stage this diff'rence lies,
Play'rs to reform us wear a known disguise;
We no such warrantable end can boast,
But still are hypocrites at others cost.
To shame us from the trade, the cheats they play,
We, when we most pretend to serve, betray.
In justice to ourselves, then let's forbear
To censure, and our BROTHER STROLLERS spare.

N. B. It will be seen that (to the rates of duty imposed on goods, wares and merchandise in American vessels) an addition of 10 per cent. has been made, when the importations are in foreign vessels, on all the foregoing and ad valorem and specific articles, except on Teas from China; in that instance alone the act makes the specific discrimination. The 3d section of the act provides that this additional duty of 10 per cent. shall not apply to goods, wares and merchandise imported in ships or vessels not of the United States, entitled by treaty, or by an act or acts of Congress, to be entered in the ports of the United States, on the payment of the same duties as are paid on goods, wares and merchandise imported in ships or vessels of the United States.

Merchandise not free, not subject to any other rates of duty, pays a duty of 15 per cent. ad valorem.

NOTES.

A late Law of the United States, provides a specific duty on all wines, not enumerated in the act to regulate the duties on imports and tonnage, passed April 20, 1816, that is to say, on wines when imported in bottles or cases, 30 cents per gallon, and when imported otherwise than in bottles or cases, 15 cents per gallon.

Those powers with whom treaties exist, entitling them to enter their ships and merchandise upon the same footing as those of the United States, are Great Britain, the Netherlands, Sweden, Prussia, and the cities of Hamburgh and Bremen. But there are exceptions, as to merchandise from the *colonies* of some of these powers.

TONNAGE DUTY,

On all ships or vessels, entering from any foreign port or place.

On American vessels,	6 cents per ton
On British vessels from the possession of Great Britain *in Europe*,	6 cents per ton
On vessels from the possession of the King of the Netherlands *in Europe*,	6 cents per ton
On British vessels from places other than the possession of Great Britain *in Europe*,	100 cents per ton
On vessels of the King of the Netherlands other than his possessions *in Europe*,	100 cents per ton
On all other foreign vessels, where the American flag is not interdicted,	100 cents per ton
On British and Dutch vessels, and on all other foreign vessels, where the American flag is interdicted,	250 cents per ton

NOTE.—The Navigation Act of the United States, passed April 18, 1818, prohibits all vessels sailing under the British Flag, to enter the United States, upon pain of confiscation, that shall arrive from any port or place in a colony or territory of his Britannic Majesty, which may be, by the ordinary laws of Navigation and Trade, closed against vessels owned by citizens of the United States; AND ALSO, all those of the same kingdom, that shall have touched at or cleared out from ports open to the American Flag, to the like terms of confiscation.

APPRAISERS OF MERCHANDISE.

An Act of Congress, April 20, 1818, appoints two appraisers for the ports of Boston, New-York, Philadelphia, Charleston and New-Orleans, who receive 1,500 dollars per annum, except those of New-York,* (salary 2000 dollars per annum,) whose duty is "faithfully to inspect and examine such goods, wares and merchandise as the collector may direct, and truly to report, to the best of their knowledge and belief, the true value thereof when purchased at the place or places when the same were imported." A respectable resident merchant is to be chosen by the party interested, who is to inspect and report with the appraisers, in the above principal ports; and in other than the said principal ports, two merchants are to act, selected by the Collector, together with a respectable resident merchant chosen by the party in interest. A fine of fifty dollars is imposed on any merchant who shall refuse to act as above, when chosen.

CUSTOM-HOUSE, NEW-YORK.

DAVID GELSTON, *Collector.*—JOSEPH G. SWIFT, *Surveyor.*—JOHN FERGUSON, *Naval Officer.*

The hours of attendance are from ten o'clock, A. M. to 3 o'clock, P. M. Every thing is conducted with great regularity and promptness There is a Collector, Naval Officer, Surveyor, and 12 Clerks, who have desks in the public rooms, and to which there is every facility of access. This department takes cognizance of all goods, wares, and merchandise imported into New-York in American or foreign ships or vessels; and also of all passengers. There is a table or tariff published of the duties payable on these goods.

It is necessary to state, for the information of passengers entering the harbour of New-York, that, by Sect. 46 of the Act of Congress regulating these matters, an entry must be made at the Custom House on their arrival, of their names, clothes, tools, or implements of trade or professions, (all which are exempt from duty,) and an oath taken respecting them; the form of which, and of the entry, to be had at the office gratis. Cabin passengers make this entry themselves, and pay 20 cents each for a permit; on exhibiting which to the officer on board, they are allowed to remove their baggage, after it has been inspected. Only one entry and permit is necessary for a *family*, and only 20 cents demanded, whatever may be the number of the family. Remains of sea-stores, such as tea, sugar, foreign spirits and wines, are liable to pay duties; but, unless these are of great bulk or quantity, they are generally allow to pass free.

An entry is usually made by the master of the vessel, of *steerage* passengers and their baggage; they pay each 20 cents for a permit. When entry is made by any person not the owner, he gives bond for payment of the duties, if any; and if, after entry is made at the custom house, and the oath taken, any article is found belonging to a passenger, liable to pay duty, *not specified in the entry*, it is forfeited, and the person in whose baggage the article is found, subjected in treble the value.

ORGANIZATION OF THE EXECUTIVE DEPARTMENT.

THE PRESIDENT.

He must be 35 years of age, 14 years a resident of the United States; a natural born citizen, or a citizen at the time of the adoption of the constitution. In case of his removal, death, resignation, or inability, the duties of his office devolve on the Vice President; and by act of 1st of March, 1792, in case of removal, death, resignation or inability, both of President and Vice President, the president of the senate pro tempore; and in case there shall be no president of the Senate, then the Speaker of the House of Representatives, for the time being, is to act as President.

The President's official household consists of himself and a private Secretary, whose salary is paid by himself. The present Secretary is J. J. Monroe, Esq.

The legal title of this officer is *The President of the United States;* and he is, by the constitution, commander in chief of the Army and Navy of the United States, and of the Militia of the several States, when called into the service of the United States.

The President receives 25,000 dollars per annum salary, which cannot be increased or diminished during the term for which he is elected. His salary was fixed by act of 18th February, 1793.

He, as well as the Vice President, is elected by electors in the several States, who are chosen as the legislatures of the respective States may provide. His period of service is 4 years, and there is no restriction as to his re-election; but there is no instance of any President's having served for a longer time than eight years. The following are the names of the Presidents of the United States under the present form of government, and the dates at which they were sworn into office:

GEORGE WASHINGTON,	1st term,	4th March, 1789.
	2d term,	4th March, 1793.
JOHN ADAMS,	1st term,	4th March, 1797.
THOMAS JEFFERSON,	1st term,	4th March, 1801.
	2d term,	4th March, 1805.
JAMES MADISON,	1st term,	4th March, 1809.
	2d term,	4th March, 1813.
JAMES MONROE,	1st term,	4th March, 1817.

Under the present constitution, the seat of the general government was, in the first instance, New-York, then Philadelphia, and finally Washington City; to which the public offices were removed in the year 1800. Congress held its first session in the latter place, on the 17th day of November of that year.

VICE PRESIDENT.

The Vice President of the United States is elected in the same manner as the President. He is, ex-officio, President of the Senate; and, as President of the Senate, in virtue of an act of the 8th of May, 1792, one of the commissioners of the Sinking Fund. His salary, of 5000 dollars per annum, is fixed by the act of 18th February, 1793. The Vice-President is not a member of the Cabinet.

SECRETARY OF STATE.

This officer was created by the act of 15th September, 1789. Previous to that period, by act of 27th July, 1789, he was denominated Secretary for the Department of Foreign Affairs. He is, ex-officio, a commissioner of the Sinking Fund, and by usage, a member of the Cabinet. He corresponds officially with the public ministers of the United States at foreign courts, and with the ministers of foreign powers resident here. He performs the main duties of what, in other governments, is called the Home Department; and has the superintendence of the office which issues patents for useful inventions, and of copyrights. He holds his office at the will of the President.

SECRETARY OF THE TREASURY.

The office of Secretary of the Treasury was created by act of the 2d of September, 1789. He superintends all the fiscal concerns of the government, and, upon his own responsibility, recommends to congress measures for improving the condition of the revenue. He holds his office at the will of the President; and, by usage, is a member of the cabinet.

SECRETARY OF WAR.

The War Department was erected by act of 7th August, 1789. The Secretary of War, at first, had the superintendence of Naval Affairs. On the 30th of April, 1798, however, a separation took place, and a Navy Department was established. The Secretary of War superintends every branch of the military department; and is, by usage, a member of the cabinet. He holds his office at the will of the President.

SECRETARY OF THE NAVY.

This officer was created by act of 30th April, 1798. He issues all orders to the Navy of the United States, and superintends the concerns of that establishment generally. To aid him in the discharge of his duties, a Board of Navy Commissioners was instituted by act of 7th February, 1815. The Secretary of the Navy is, by usage, a member of the cabinet; and holds his office at the will of the President.

ATTORNEY GENERAL.

THE PROGRESS AND PROSPECTS OF THE NAVY.

It will be recollected, that the Navy Yard at Washington, was burnt, and every thing in it destroyed, during the war. It has already, like the Phœnix, risen from its ashes. There is now on the stocks, a line of battle ship, nearly finished; the frame of a frigate ready to be put on the stocks, as soon as the 74 is launched; a powerful steam engine, working a saw mill, tilt hammers, and the machinery of a block maker's shop, where all the blocks of the Navy are made. An extensive anchor manufactory; a manufactory of chain cables; extensive blacksmiths' and plumbers' shops; extensive mould and model lofts, boat builders and mast makers' establishments, and every other convenience for furnishing from thence all the wants of the Navy, that such an establishment can furnish. There are, besides, large quantities of naval stores, guns, and timber for ship building deposited there.

There are at Norfolk, large deposits of timber for the use of the Navy; a line of battle ship building, and the frames of another line of battle ship and frigate, are also collecting there.

A line of battle ship is now building at Philadelphia; the frame was collected and put up early last spring. The frames of another line of battle

ship and frigate, are also collecting at that place; where there are considerable deposits of timber, copper, iron, and other naval stores.

At New-York, the line of battle ship on the stocks is expected to be launched during the present month. There are two frames of frigates deposited there, with considerable quantities of other timber for ship-building, iron, copper, and guns.

At Boston, is building a line of battle ship; the frame was collected, and set up in the spring. The frames of another line of battle ship and frigate are also getting ready for that place, where there are large deposits of timber, iron, and copper, for ship-building.

Another line of battle ship is also now building at Portsmouth, (N. H.) where the frame was collected, and set up in the spring. The frames of another line of battle ship and frigate, are also collecting there; where deposits of ship timber, iron, and copper, are made.

An abundant supply of timber, canvass, cordage, copper, iron, and every other article, the produce and manufacture of the United States, are already provided for carrying into effect the law for building nine line of battle ships, and twelve frigates, in addition to the ships now afloat; which will make the Navy of the United States, on the Ocean, *twelve line of battle ships, twenty frigates, and a proportional number of small vessels.* It is doubted whether any nation in the world, (even England,) can send to sea so large a fleet of *effective* ships. All this will have been done in the space of a few years, under the guidance and management of the Navy Board.

For the deposit of Wines, &c.

An act providing for the deposit of Wines and distilled Spirits in public warehouses, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America, in Congress assembled, that it shall be lawful for any importer of wines or distilled spirits, which may be imported into the United States, at any time after the first day of June, 1819, at his option, to be determined at the time of making entry therefor, either to secure the duties thereon, on the same terms and stipulations as on other goods, wares, and merchandise imported, or to give his bond in double the amount of the duties thereupon, with condition for the payment of the said duties, in twelve calendar months from the date of such bond; which bond shall be accepted by such collector without surety, upon the terms following, viz.—The wines or distilled spirits, for the duties whereof such bond shall be accepted, shall be deposited at the expense and risk of the importer, in such public or other store-house as may be agreed upon between the importer and surveyor, or officer of inspection of the revenue, for the port where the said wines or spirits shall be landed; and such wines or spirits shall be kept under the joint locks of the inspector and the importer; but no delivery shall be made of such wines or spirits without a permit in writing, under the hand of the collector and naval officer of the port.

Sect 2. *And be it further enacted*, That no permit shall be given for the removal of the wines or spirits deposited under the provisions of the foregoing section, unless the duties upon the wines or spirits for which it shall be required, be first paid or secured, in the manner following, viz. The importer, or his assignee, shall give bond, with one or more surety or sureties, to the satisfaction of the collector, in double the amount of the duties upon the wines or spirits in each case to be delivered, with condition for the payment of the said duties, at the same credits, to be computed from the date of the permit, as

would have been allowed on bonds for the same articles, if they had not been deposited under the provisions of this Act. *Provided*, that the time to be allowed for the payment of the duties upon any wines or spirits so delivered, or for any part of such duties, shall not be such as to extend the credit beyond the term of twelve calendar months, originally allowed upon depositing such wines and spirits.

Sect. 3. *And be it further enacted*, That if the duties on any wines or spirits, deposited under the provisions of this act, shall not have been paid, or secured to be paid, in the manner described in the foregoing section, within the term of twelve calendar months from the time of their importation, it shall be the duty of the collector to cause so much of such wines or spirits as may be necessary, to be sold at public auction, and retaining the sum necessary for the payment of the duties which have not been secured or payed, together with the expenses of safe keeping and sale of such wines or spirits, shall return the overplus, if any, to the owner or to his agent, or lawful representative; and the amount of each bond, taken for the duties on wines or spirits delivered, after being deposited, as directed by this act, shall be endorsed immediately on the original bond given by the importer, specifying the articles delivered, and the date of the delivery.

Sect. 4. *And be it further enacted*, That no drawback shall be allowed of the duties paid on any wines or spirits, which shall be imported into the United States after the first day of June, 1819, unless such wines or spirits shall have been deposited in public or other stores, under the provisions of this act, and there kept from their landing to their shipment.

Sect. 5. *And be it further enacted*, That if any wines or other spirits, deposited under the provisions of this act, shall be embezzled or fraudulently hid or removed from any store or place wherein they shall have been deposited, they shall be forfeited; and the person or persons so embezzling, hiding or removing the same, or aiding or assisting therein, shall be liable to the same pains and penalties as if such wines or spirits had been fraudulently unshipped or landed without payment of duty.

Sect. 6. *And be it further enacted*, That from and after the first day of June, 1819, the bonds for duties on articles imported by sea, the produce of foreign places or islands, situated on the eastern shores of America, north of the equator, or in its adjacent seas, bays, and gulfs, salt excepted, shall be payable, one half in six, and one half in nine calendar months; and the bonds for duties on goods, wares, and merchandise, (other than wine, salt and teas,) imported from any other place than Europe and the West Indies, shall be payable, one-third in eight, one-third in ten, and one-third in eighteen calendar months.

H. CLAY,
Speaker of the House of Representatives.
JOHN GAILLARD,
President of the Senate, pro tempore.

Approved—April 20, 1818.

On all goods, &c. from Europe, (wines and teas excepted,) the one-third in eight, one-third in ten, and one-third in twelve months.

On all goods, &c. (wines and teas excepted,) from any other place than Europe, the West-Indies and north of the equator, the one-third in eight months, one-third in ten months, and one-third in eighteen months.

Teas, from China or Europe, may be deposited at the option of the importer or importers, (to be determined at the time of making entry therefor,) either to secure the duties thereon, on the same terms and stipulations as on other goods, wares, and merchandise imported, or to give his, or her, or their bond, to the collector of the district where any such teas shall be landed, in double the amount of the duties then upon, with condition for the payment of the said duties *in two years* from the date of such bond: which bond shall be accepted by such collector without surety, upon the terms following; that is to say, the teas, for the duties whereof such bond shall be accepted, shall be deposited at the expense and risk of the said importer or importers, in one or more store-house or store-houses, as the case may require to be agreed upon, &c. The said teas to be delivered upon bond being given, with one or more surety or sureties, to the satisfaction of the collector, "if the same shall not exceed 100 dollars, in four months, if above 100 dollars, and not exceeding 500 dollars, in eight months; or if the same shall exceed 500 dollars, in 12 months;" so that the term of credit shall not extend the period beyond *two years* from the time of depositing the said teas. Sureties on all bonds given for duties, shall, in case of insolvency or death of the principal, "have and enjoy the like advantages, priority, or preference for the recovery and receipt of the said money out of the estate and effects of such insolvent, or deceased principal, as are reserved to the United States."

When bonds are prosecuted for the recovery of duties due to the United States, judgment to be granted at the return term, "unless the defendant shall in open court, the United States Attorney being present, make oath or affirmation, that an error has been committed in the liquidation of the duties demanded upon such bond, specifying the errors alleged to have been committed, and that the same have been notified, in writing, to the collector of the district prior to the commencement of the return term aforesaid."

On all bonds upon which suits shall be commenced, an interest shall be allowed at the rate of six per cent. per annum, from the time when said bonds became due until the payment thereof.

SECT. 33. Duties to be paid where goods are landed, and bonds to be given for securing the duties, if the whole or part of the cargo is destined to different districts.

Sec. 25. Sec. 28. Masters of vessels receiving goods so unladen (except as before excepted,) to forfeit treble the value of such goods; and the ship, boat, or vessel receiving them, to be forfeited.

Sec. 29 If any vessel, having arrived within any district, shall depart, or attempt to depart from the same, (unless to some more interior port, or by stress of weather,) without report to the collector, the master forfeits four hundred dollars.

Sec. 30. Any vessel arriving from a foreign port, the master is to report to the collector, within twenty-four hours after his arrival; and within 24 hours thereafter, further to report the name, burden, &c. in writing, agreeable to the directions of section 23d, and shall make oath or affirmation to the truth of the same.

The master or other person having charge of any vessel having distilled spirits, wines, or teas, shall, within 48 hours after arrival, make a report in writing to the surveyor, or officer acting as inspector of the revenue of the port, under a penalty of five hundred dollars.

The master, or other person having command, neglecting to make such report, forfeits one thousand dollars.

Sec. 31. Ships of war, or packets of any prince or state, not permitted by such prince or state to carry goods in way of trade, are not required to make such reports.

Sec. 32. Masters of vessels after arrival and entry, may proceed to foreign ports with goods, *noted on the manifest at the time of entry for such foreign port*, without paying duties thereon, on giving bond that the said goods shall be actually re-exported in such vessel to a foreign port; but bonds are not required when vessels put in, in distress.

Sec. 34 Masters of vessels, having goods on board, destined to different districts, other than the district at which he may arrive, to be furnished by the collector with a copy of his report, and a certificate,

showing on what part of the cargo the duties have been paid or secured, and give bond for reporting such goods, on which the duties have not been paid or secured; which copy the master is to produce to the collector of the district where bound, within twenty-four hours after his arrival, under a penalty of five hundred dollars; and the said bond to be cancelled by producing from the collector of such district, a certificate within six months, of the due entry and delivery of such merchandise in such district or districts.

Sec. 35. In addition to the foregoing section, the master to apply to the surveyor or inspector of the port for a copy of his report, where there are distilled spirits, wines, or teas on board, to be delivered in different districts,—the want of which subjects such articles to forfeiture, and five hundred dollars penalty on the master.

Post Office Law.

No ship or vessel from foreign ports, or coming by sea from any port of the United States, shall be permitted to report, make entry, or break bulk, till the master shall deliver to the postmaster, all letters under his care or within his power, other than such as are directed to the owner or owners of such ship or vessel; and an oath or affirmation to be taken of such delivery; the master to receive two cents for every letter so delivered.

Sec 57 Goods found on board any vessel not noted on the manifest, the master to make post entry, previous to any permit being granted therefor.

Packages wanting, or goods not agreeing with the manifest, the master forfeits five hundred dollars, unless made appear to the satisfaction of the principal officers of the customs, that no part of the cargo has been unloaded since it was taken on board, except such as noted in the report, and pursuant to permits; and that such disagreement arises from accident or mistake.

Sec 60. Vessels arriving from any foreign port, in distress, at any port in the United States, not being destined for the same, protest to be made by the master and mate, within 24 hours, and lodged at the custom house; and within 48 hours enter his vessel, as in all other cases; and if by certificate of the wardens of the port, of the necessity thereof, the vessel may be unladen and cargo deposited in the public store, and reladen again (except such part as may be necessary to be sold to defray the expenses of the repairs of the vessel only, on which the duty shall be paid as in other cases.) by permission from the custom-house, free from any other charge than storage and fee to the officers of the custom, as in other cases.

Sec. 93. The master or person having command of any vessel bound to a foreign port or place, shall deliver to the collector of the district from whence such vessel is about to depart, a manifest of all the cargo on board, and the value thereof, subscribed by such person: the penalty for not delivering such manifest, and obtaining a clearance, previous to departure from such district, is 500 dollars for every offence.

Importers and Consignees.

Sec. 36. Owners or consignees of goods imported, are, within fifteen days after the master's report, to make entry with the collector, detailing the several contents and nett cost of each package par-

ticularly, and produce the original invoice, documents and bills of lading, which must be verified on oath or affirmation, by the said parties, who must subscribe the form of entry on oath.

When the above entry is made by any agent, factor or other person, other than *bona fide* owner or consignee of such merchandise, such person to give bond in the sum of one thousand dollars, over and above what the duties may amount to, with condition, that the *bona fide* owner or consignee of such merchandise, shall, on or before the first period of payment of such duty become due, deliver to said collector a full and correct account of said merchandise, in manner and form aforesaid; verified by a like oath or affirmation, before any judge of the United States, or a judge of any court of record of a state, or before a collector of the customs; and in case the duties are paid at the time of entry, a like bond to be given, that such an account shall be delivered, within ninety days from such entry.

When the particulars of such merchandise are not known, an entry thereof to be made according to circumstances; declaring on oath or affirmation, all the particulars the party knows or believes concerning the same, to be subscribed by the party; and where an imperfect entry is made, either for want of invoices, bills of lading, &c. the collector to take such merchandise into his custody, until the quantity, quality or value can be ascertained. .

Sec. 37. Every importer or consignee of distilled spirits, wines or teas, to make a separate entry of the same, specifying the name of the vessel and master, and place from whence; the quantity and quality, and a particular detail of the chests, casks or vessels, containing the same, with the marks and numbers; which entry, after being certified by the collector, to be produced to the surveyor or officer acting as inspector of the revenue for the port; and all permits granted by the collector for the above articles, shall, prior to the landing of the same, be produced to the surveyor or officer acting as inspector for the port, for endorsement; any of the above articles landed, contrary to the above direction, are subject to forfeiture, and five hundred dollars penalty on the master or person having charge of the vessel.

Goods not landed in 15 days, to be sent to the public store, and all goods so deposited to be at the risk and charge of the importer; and if not entered and the duties paid, or secured within nine months, to be sold, (being first advertised for one month,) the surplus money arising from such sale, after the duties and charges are paid, to be paid into the treasury of the United States, for the benefit of the owners, who, upon due proof of the property, shall be entitled to the same. Perishable articles may be sold immediately.

Sec 66. Goods entered under a fraudulent invoice, to be forfeited, or where the collector shall suspect that such goods are not invoiced agreeable to the sum such goods are sold for at the place from whence they are imported, to be taken into his possession at the risk and ex-

Sec. 67. Packages may be opened in presence of two merchants, upon suspicion of fraud and repacked under the inspection of an officer; and if found to differ from the entry, to be forfeited, unless made appear to the satisfaction of the principal officers of the customs, or a court on trial, that such difference proceeds from accident or mistake, or without intention of fraud.

Sec. 48. Report and entry of such goods, &c. to be made, and proof, by oath or affirmation, of the facts thereof.

* St Augustine, Nova Scotia, Halifax, and the Canadas.

corresponding therewith, which must be marked and numbered as the originals, but no change or filling up to take place, unless the casks or other packages are unfit for exportation, and in no other case; the whole to be performed under the inspection of a proper officer appointed for that purpose.

When articles are imported in bulk, the packages in which they are landed shall be deemed the packages of original importation, and must be exported in the same; and all certificates for distilled spirits, wines, or teas, must be given up, or no drawback to be allowed.

SECT. 76. Twenty-four hours notice to be given, by lodging an entry therefor before shipping the goods, except distilled spirits, which require but six hours; and goods shipped without a proper permit, forfeit the drawback.

Previously to any permit being given, proof must be made by the importer, of the importation and the paying or securing the duties thereon, and every other person through whose hands such merchandise may have passed, of the identity thereof.

SECT. 32. If any goods, wares, or merchandise, entered for exportation with intent to drawback the duties, shall be landed within the limits of the United States, the same is subject to seizure and forfeiture, together with the ship or vessel, and the vessels or boats used in landing the same: and all persons concerned therein, upon conviction, to suffer imprisonment not exceeding six months.

SECT. 79. Merchandise may be transported across the state of New-Jersey, by the following route to Philadelphia, and exported from thence to a foreign port, and obtain drawback, viz. New-Brunswick, South Amboy, and Lamberton, Bordentown, or Burlington, by making an entry as if transported by water; the said merchandise to be inspected and marked previous to the landing on board any packet with intention of transportation as aforesaid, and obtaining the certificate as in other cases; and if merchandise is transported by any other route than expressed in the passport accompanying the same, or if the marks, fastenings or seals that may be placed thereon, by direction of any officer of the customs, be broken or defaced, or unpacked, the merchandise in respect to which such omission or wrong doing shall happen, or the value thereof, shall be forfeited.

SECT. 30. If goods are exported from the district into which they were originally imported, the exporter shall receive from the collector of such district, a debenture or debentures for the amount of such drawback, payable at the exact time or times on which the duties on such goods shall become due. *Provided*, that if the duties on such merchandise shall have been paid prior to an entry for exportation, the debenture shall be made payable in 15 days from the time of signing the bond; and the debenture may be made payable to the original importer when the same shall be requested in writing by the exporter, and not otherwise.

If merchandise having been imported coastways, accompanied with a certificate, shall be exported to a foreign port, the exporter to receive a certificate from the collector of the district from whence exported, which is to be produced to the collector of the district of original importation, and the drawback to be paid at such port, upon debenture or debentures being granted thereon, payable as aforesaid,—but in no case is the drawback to be paid until the duties are first received.

SECT. 55. Persons giving or offering a bribe, forfeit from 200 to 2000 dollars. Inspectors, and officers of revenue cutters, may go on board, examine, and search vessels: have free access to the cabin, and seal packages; and after sunset, secure hatches, &c. The bond not to be forfeited, on failure of the master to produce any person contained in the list, who may be discharged in a foreign country, with the consent of the consul, vice-consul, commercial agent, or vice-commercial agent, there residing, signed in writing, under his hand and official seal; nor on account of any such person dying, or absconding, or being forcibly impressed into other service.

Sect. 4. States, bound to a port of the same, to take such seaman on board of their ships or vessels, at the request of said consuls, &c. (not more than two men to every hundred tons burden of his ship or vessel,) and to transport them to the port in the United States to which he is bound, on such terms as may be agreed on, not exceeding ten dollars for each person; and if the captain or commander refuses to take such seamen on the request of the consul, &c. he forfeits 100 dollars for each seaman so refused.

United States Patents.

The general law concerning the issuing of Patents will be found in the second volume of the Laws of the United States, page 200. This law provides for citizens only; but a subsequent law (vol. 5, page 83) provides also for applicants who have resided two years or upwards in the United States, and who are not citizens.

In applying for a patent, it is necessary to attend to every legal form, for in consequence of inattention to forms only, some of the patents issued formerly have, in the courts of law, been declared to be null and void.

Mode of Application.

"Every inventor, before he presents his petition to the secretary of state, signifying his desire of obtaining a patent, shall pay into the treasury of the United States, thirty dollars, for which he will be furnished with duplicate receipts, one of which he shall deliver to the secretary of state, when he presents his petition; and the money thus paid shall be in full for the sundry services to be performed in the office of the secretary of state, consequent to such petition. This petition must be addressed to the secretary of state, and may be in the following or in a similar style:

To the Hon. ———— ————, *Secretary of State of the United States.*

The petition of A. B. of ————, in the county of ————, and state of ————, respectfully represents;

That your petitioner has invented a new and useful improvement ["or art, machine, manufacture or composition of matter, or any new and useful improvement in any art, machine, manufacture, or composition of matter,"] in ————, not known or used before his application, the advantages of which he is desirous of securing to himself and his legal representatives; he therefore prays that letters patent of the United States may be issued, granting unto your petitioner, his heirs, administrators, or assigns, the full and exclusive right, of making, constructing, using, and vending to others to be used, his said improvement, (art, invention, machine, manufacture or composition of matter, &c.) agreeably to the acts of Congress in such case made and provided; your petitioner having paid thirty dollars into the treasury of the United States, and complied with the other provisions of the said acts. A. B.

The specification or description of the machine, art, discovery, or invention, must be given in clear and specific terms, designating it from all other invention, and describing the whole in such a manner as to comprehend not only the form and construction, if a machine, but also the mode of using the same; and if it be only an improvement on a certain machine already invented by the applicant or any other, it ought to be so mentioned as described;

and as this specification, description, or schedule, enters into and forms part of the patent, it must be without any references to a model or drawing, and must be signed by the applicant or applicants, before two witnesses. It is material that this be in good language, and correctly written, as it is transcribed into the patent, and the original papers will be deposited in an office, that will hand them down to posterity; by which the honour of the country is concerned in this attention. The modest inventor will, no doubt, exclude those panegyrics on the excellence of his invention or discovery, which abounds sometimes in the productions of the inferior genius, but which ought not to enter into the patent.

The following, or a similar oath or affirmation, taken [before a judge of any of the courts, or a justice of the peace, or any person qualified to administer an oath] by the applicant or applicants, must be subjoined to the specification, if citizens of the United States:

FORM.

County of ——, } ss.
State of——, }

On this —— of ——, 181 , before the subscriber, a justice of the peace, in and for the said county, personally appeared the aforenamed, A. B. and made solemn oath [or affirmation] according to law, that he verily believes himself to be the true and original inventor or discoverer of the art, [machine, invention, or improvement, composition of matter, &c.] above specified and described, for —— (mention here the object or intention) ——, and that he is a citizen of the United States.

——, *Just. Peace.*

If not a citizen (or citizens) the following addition must be made to the declaration, "that he verily believes himself to be the true and original inventor or discoverer of the art, &c. And that the same hath not, to the best of his or her knowledge, or belief, been known or used, either in this or any foreign country——," "Also, that he (or she) hath resided in the United States two years and upwards."

It is not necessary that the time of residence should immediately precede the application.

If an inventor or discoverer should die intestate, before an application be made for a patent, his legal representatives may apply for the patent, in trust for the heirs at law; otherwise in trust for the devisees.

The specification must be accompanied by a good drawing, in perspective, of the whole machine or apparatus, "where the nature of the case admits of drawings, or with specimens of the ingredients, and of the composition of matter, sufficient in quantity for the purpose of experiment, where the invention is of a composition of matter." "And such inventor shall, moreover, deliver a model of his machine, provided the secretary shall deem such model to be necessary." It is requisite, in giving a drawing of the machine, to give also sectional drawings of the interior when the machine be complex; and every drawing should be accompanied with explanatory reference. If the machine is complex, a model will likewise be necessary, not only to explain and render it comprehensible to a common capacity, but also to prevent infringements of rights; for many will plead ignorance of drawings, who cannot avoid conviction by wheels and pinions.

The drawings ought not to exceed a quarto size, and if confined to octavo, they would be still better, where it can be done conveniently and distinctly.

Many of the drawings in this office are executed in a very handsome style, and do much credit to the gentlemen whose names are ascertained. If the artists would always sign them, with their directions, information might be given to the applicants for patents where to apply for drawings.

The papers must all be sent directed to the superintendent of the Patent Office, under cover to the secretary of state, which of course renders them free of postage; but if models be sent, their freight or carriage hither must be

paid, and before packing them, the name or names of the inventor or inventors should be written thereon, with the name of the machine, and the date; for, sometimes, on receiving them, it is difficult to know to whom they appertain.

The congress being impressed with a high sense of the value of the inventions of our citizens, have purchased an elegant and extensive building, wherein preparations are made for the accommodation of a very numerous collection of the machines illustrative of the ingenuity displayed; and this Museum of the Arts, it is presumed, will stimulate the ingenious to send the models of their machines and inventions in a style that will rather honour than discredit themselves and our country.

Copy-rights of books, prints, charts, maps, &c. are secured "by depositing before publication, a printed copy of the title of such map, chart, book or books, in the clerk's office of the district court, where the author or proprietor shall reside, who will record the same; and the author or proprietor shall within two months from the date of the record, cause a copy of the said record to be published in one or more of the newspapers printed in the United States, for the space of four weeks. And within six months of publishing the map, chart, book, or books, the author or proprietor shall deliver, or cause to be delivered, to the secretary of state, a copy of the same;" and, when deposited and entered in the patent office, a certificate will be returned of its being received. This will secure the sole right of publication, for fourteen years, to the author or proprietor, if a citizen in the United States, or resident therein. "And if, at the expiration of the term, the author or authors, or proprietors, or any of them, be living and a citizen or citizens of these United States, or residents therein, the same exclusive right shall be continued to him or them, his or their executors, administrators, or assigns, for the further term of fourteen years; provided, he or they shall cause the title thereof to be recorded and published in the above manner, within six months before the expiration of the first term of fourteen years aforesaid." In securing designs for paper-hangings and ornaments for rooms, &c. a specimen of each should be deposited in the clerk's office where the inventor resides, who will describe in writing, all the ornaments, and the colours used in each, so as to designate them, with the changes that are proposed to be used in changing the ground and general tint. Let each paper thus described, be numbered, 1, 2, 3, &c. and after entering them in the clerk's office, and publishing them as directed, let a specimen of each be sent to the honourable the secretary of state, or through him to the person who directs the patent office, with correspondent description and numbers; and a certificate of such a deposit will complete the requisitions of the law in securing the exclusive right to each original production of genius.

WILLIAM THORNTON.

POST OFFICE ESTABLISHMENT.

The Post Office Establishment is under the direction of a Post Master General, whose office is called the General Post Office, and is kept at the seat of government.

Congress, by special act, establishes such post roads as appear to them expedient. At this time there is a main post road which extends 1,733 miles from Robbinstown, on the north-eastern extremity of the sea-coast of the United States, to St. Mary's, on the south-eastern extremity; and another main post road, which leads from the seat of government to New Orleans, being a distance of 1,235 miles, and branches, or cross-roads, which keep up a communication between the capital of the United States and the capitals of the individual states, and also with every city or village of any note. The aggregate of the extent of the several post roads is about 51,600 miles.

The mail is carried by contracts made with the Post Master General, who has divided the whole into nearly 400 routes or contracts, and has stipulated for its conveyance as often and with such expedition as he finds the public interest requires. It runs daily between the great and commercial towns; twice a week to the capitals of each state, not commercial; and once a week to other places. The usual rate of travelling on the cross-roads, is 40 miles a day; and from 60 to 120 miles in 24 hours, between the great commercial towns.

Post Offices are established by the Post Master General, at such places as he considers expedient.

There are stages for the conveyance of the mail and passengers, from Belfast in Maine, to St. Mary's in Georgia, and on many of the cross-roads.

PUBLIC BUILDINGS.

CITY HALL.

The City Hall is the most prominent, and most important building in New-York, and the handsomest structure in the United States, perhaps of its size in the world. This chaste and beautiful edifice stands near the upper end of the Park, and though somewhat encumbered by the vicinity of the Bridewell and Gaol, it is seen to considerable advantage from almost every quarter. The whole length of this building is 216 feet; breadth 105 feet, including the attic story. It is 65 feet in height. On the cupulo is placed the colossal figure of *Justice*.

NEW-YORK HOSPITAL.

This institution comprises the *Hospital* for the reception of the sick and disabled, the *Lunatic Asylum*, and *Lying-in-Hospital*. Its length 455 feet; breadth 450 feet. Its site is in Broadway, near Duane Street.

ALMS HOUSE.

The buildings occupied by this useful and necessary establishment, stand at Bellevue, on the banks of the East River. Its structure is of plain stone, three stories high; length 320 feet; 50 feet wide.

COLUMBIAN COLLEGE.

This edifice stands on an elevated and airy situation, at the upper end of Park Place, between Broadway and the Hudson, in the near vicinity of the City Hall, and has lately gone through a thorough repair, which has added much to its beauty.

COLLEGE OF PHYSICIANS AND SURGEONS.

The building occupied by this respectable body is situated in Barclay-Street. It is an elegant and commodious structure, and fitted up, in the interior, in a style completely adapted to the different objects embraced by this society. It was not till May, 1813, that the trustees purchased the ground on which they afterward reared the present building.

The management of the affairs of the College is in the hands of Trustees. By the act of the legislature of April 5th, 1813, it is enacted, "that the amount of property which the said college shall or may be authorized to hold, shall never exceed in value 150,000 dollars, current

money of New-York. and that the said Regents reserve to themselves the right of conferring degrees, and appointing the professors or teachers of the several branches of the medical science in the said college, and of filling all such vacancies as shall or may arise among the trustees or members thereof." The Regents are also authorized, by the same act, to appoint any of the trustees professors and teachers in the college, and to alter and amend the charter when they think fit.
